

Check out our awesome ENRICHMENT PROGRAMS!!!!

Magical Music: This is a fun-filled time where the children can EXPRESS themselves to the fullest! The children will be playing instruments, singing, moving to music, and much more! We are excited to have Ms. Gigi to teach our music class!! She has experience teaching music to infants through fifth grade. She holds both a bachelor's and master's degrees in music education from the University of Kentucky. Currently, she is staying home with her two sons, Jacob and Justin. During the past few years that she has been out of the elementary school setting, she has taught music for other local childcare centers and programs.

Busy Bees: In this movement class your children will learn basic tumbling moves like somersaults, rolls, handstands, cartwheels, and much more. We throw in some dance and yoga moves to make it a movin' and grovin' class!

Sign Language: Research demonstrates that teaching sign language to children improves their language, vocabulary, and reading skills as they develop. We are very excited to have Ms. Briana to teach our sign language class! She will be helping the Skiddaddles staff learn new signs as well so we can sign throughout the day! Welcome Briana!

Crazy Chefs: Children get ready for us to tantalize your taste buds! Let's whip up some yummy treats and fun times together. Ms. Joyce and Ms. Angie will be our "Crazy Chefs"! They both love to cook and try out new recipes! The kids will get to measure, chop, pour, and learn how to cook our yummy recipes. We will also talk about nutrition so they can understand how each ingredient is good for us.

Brainpower Tutoring: Need homework help? Our teachers are happy to help everyday after school. Bring your books and get that brain powered up!

Artsy Fartsy: Let's draw, paint, make special crafts, do scrapbooking, jewelry making, and all kinds of fun "artsy fartsy" things! Ms. Emily will do exciting projects every week! Ms. Emily is our professional artist on staff. She does the wonderful face painting that everyone loves! She is also going to school to be a graphic designer, teaches drawing at a local studio, and loves being creative!

Cool Crafts: Do you love making fun art projects? Then join us Monday nights for Cool Crafts!! Bring your imagination and we'll provide the rest!

Starting this Fall ~ SPANISH!: Miss Sam is going to help us learn Spanish!! Let's learn our colors, numbers, everyday objects, and also all about different cultures in this class!

PLEASE CHECK OUR CALENDAR FOR THE LATEST DAYS AND TIMES FOR ENRICHMENT CLASSES!

*****Please note that all enrichment programs are included in the hourly rate. There is no additional charge for these wonderful programs!!!*****
