

Skidaddles Enrichment Classes

Zumatonic: Kids love to crank up the music, shake, wiggle and have a blast with their friends. So why not get fit while they're at it? This Specialty course teaches you how to fuse the Zumba program's unique formula with the psychology and physiology relevant to teaching kids ages 4-12. You'll learn how to modify Zumba moves to get optimal results, and receive tips on discipline and class management. Join Ms Jessica each Monday at 10am for a rocking good time!

Weird Science: We are mad about Science at Skidaddles! We are so pleased to welcome Ms. Erica to Skidaddles every Tuesday at 10am. She worked at Newport Aquarium for several years and brings that awesome knowledge to our Weird Science Class. Join Ms Erica and friends for an hour of ooey gooey fun and learn about lots of interesting facts without knowing it!!

Sign Language: Research demonstrates that teaching sign language to children improves their language, vocabulary, and reading skills as they develop. We are very excited to have Ms. Michelle teach our sign language class, too! Join this Enrichment Class on Wednesday at 10am.

Spanish: Drop-in to learn numbers, colors, animals, weekly vocabulary words, and more in Spanish class! This hands on foreign language class will keep the kids coming back each week! Please welcome our Spanish teacher Ms. Michelle and her daughter Kyra! Ms. Michelle has had 6 years of Spanish classes and is excited to teach her daughter Kyra and our children at Skidaddles this great language! Join this Enrichment Class on Thursday at 10am

Magical Music: This is a fun-filled time where the children can EXPRESS themselves to the fullest! The children will be playing instruments, singing, moving to music, and much more! We are excited to have Ms. Elizabeth teach our music class!! She has experience teaching music to infants through age 9.

*****Please note that all enrichment programs are included in the hourly rate. There is no additional charge for these wonderful programs!!!*****
